SUMMARY

A front-end developer with a background as a nurse and a passion for learning, designing, programming, building functions. About personality, reliable, fast learner, self motivated, hardworking team player who works well with others. I believe that my passion for web development, designing, my skills and my personality would make me a great asset for your team and I would love to improve my knowledge and skills as your team member as well.

SKILLS

- HTML, CSS, Sass/Scss, JQuery, Javascript, React, Redux, Next.js
- Git/Github, Figma, Inkscape, Bootstrap

PROJECTS

- 1. Watch Website** - An online watch website. Customers can buy watches and check the total cost.
 - [Technical Specifications](#) / HTML, Scss, Javascript, Figma
- 2. Seattle DJ Website** - A website that has a client who is a DJ in Seattle, US. Visitors can see his profile and listen to his music as audio. Created API for making it easy to update upcoming events.
 - [Technical Specifications](#) / HTML, CSS, Next.js, Figma
- 3. Web Application InforMATE** - A web application that provides users to share and get useful information with others.
 - [Technical Specifications](#) / React, Scss, Figma
- 4. Weather App** - A web application that tells the current weather and temperature in a specific city. I designed the background changes depending on the weather.
 - [Technical Specifications](#) / React, Css, Bootstrap, API
- 5. Portfolio Website** - A portfolio website that provides visitors to know about me and make them want to hire me. Designed all by myself and focused on not only UI, but UX as well.
 - [Technical Specifications](#) / React, CSS, Figma, Inkscape
